

Soleil Niklasson Quintet

-Soulful Jazz-

Blessed with a wonderful voice and a great aura, Soleil presents the new CD "RISE" with her excellent quintet, consisting of renowned musicians from the jazz scene.

Soleil Niklasson and her quintet offer a fascinating program that impressively combines jazz, Latin, gospel and soul.

Soleil Niklasson was born in Chicago and grew up in Los Angeles. At the age of five she was already singing with the singer/actor Oscar Brown Jr. Over the course of her career she worked with greats such as Stan Getz, Billy Preston and Linda Hopkins. The singer lives up to her name (soleil - French: the sun) vocally - her warm and at the same time powerful singing goes directly to the heart and under the skin, true to her motto: "My songs are food for the heart and fuel for the soul". Together with her band, which consists of outstanding musicians, she creates a musical experience that is deeply touching. With every performance they captivate the audience and create an intense, emotional atmosphere that lingers for a long time.
